

## Marc Brandenburg and starstyling at ShopPopulaire

**On the occasion of the exhibition *Marc Brandenburg: Hirnsturm II*, ShopPopulaire, in cooperation with René Schmitt Editions, is offering current editions by the Berlin artist. These are flanked by design products from the starstyling label.**

Temporary tattoos appear again and again in the work of Marc Brandenburg. Originally designed for children and teens, they made their way into the fashion world in the noughties. Brandenburg resolutely declares his tattoo stickers to be art. The artist's drawings often appear in repeat in his editions and can be put on the wall or worn as a second skin.

### **starstyling**

Parallel to the editions, a selection of works by the Berlin label starstyling is available at ShopPopulaire. The artist has been in close contact with the makers of starstyling for years. In addition to colorful starstyling classics, selected pieces from the Stickies collection that take up the theme of peel-off tattoos in fashion are also on offer, in keeping with Marc Brandenburg.
